# NetApp Clustered Data ONTAP Migration Service

Achieve all of clustered Data ONTAP efficiencies from day one

### KEY BENEFITS

#### Accelerate Return on Investment

Get your clustered Data ONTAP® environment up and running quickly and cost effectively.

#### Maintain Operational Continuity

Minimize risk of disruption during your migration and enjoy a smooth and efficient transition.

#### Free Internal Resources

Leave the transition process to NetApp Services experts so your staff can focus on their own critical tasks.

#### Get the Most from Clustered Data ONTAP

Leverage NetApp Services methodologies and best practices to benefit from clustered Data ONTAP efficiencies and capabilities.

### The Challenge

#### Transition to clustered Data ONTAP with minimal disruption

The benefit of nonstop data availability and the increased efficiency, agility, and scale offered by NetApp® clustered Data ONTAP are powerful incentives to redesign your storage architecture.

Making a smooth transition to a clustered Data ONTAP environment requires experience in configuring clustered storage and implementing an effective migration plan. NetApp Services expertise and guidance can help you achieve your goals with minimal disruption.

### The Solution

#### Entrust data migration to the experts

Rely on experienced NetApp specialists to migrate your data to a fully configured, tested, and verified clustered Data ONTAP environment while preserving existing storage efficiencies, including Snapshot™, copies, deduplication, and compression.

NetApp Services follows a five-step process to migrate your data efficiently and with minimal impact on availability. We offer guidance on the optimal use of product features. Our established best practices and knowledgeable project management help you quickly and efficiently make the transition to a new clustered Data ONTAP environment.

### Purchase Options

NetApp Clustered Data ONTAP Migration Service is available as a custom or packaged offering. SAN and NAS protocols are supported.

#### Custom Firm Fixed Price Service

This meets the needs of customers who are migrating more than 30TB of data. It also supports organizations that are implementing new clustered Data ONTAP capabilities or who have workloads that require storage architecture or workflow redesigns.

#### Firm Fixed Price Service Packages

These provide clustered Data ONTAP configuration and data migration between NetApp systems. NetApp Services experts provide project management during the engagement for smooth execution.

OPTIONS	DATA TO BE MIGRATED
Small	Up to 8TB
Medium	Up to 15TB
Large	Up to 30TB
Custom	More than 30TB

Purchase options for the Clustered Data ONTAP Migration Service.

## Service Deliverables

- **Data migration plan.** Contains the data layout and storage mappings to the hosts involved in the data migration. Makes sure that all aspects and steps performed during the data migration process are documented.
- **As-built document.** Describes how the data migration was executed and serves as a blueprint for rebuilding the environment if necessary.

## Streamlined Process

Our five-step process is designed to handle a wide range of complex migration scenarios while keeping your specific needs in mind. NetApp Services experts perform the following steps:

1. **Discovery.** Assess information about hosts, storage, and fabrics in your environment.
2. **Design.** Determine the appropriate clustered Data ONTAP configuration and migration strategy for each host and storage array and create a detailed plan.
3. **Implement.** Configure and provision the systems in accordance with the approved design, migrate the data, and assist with host remediation.

4. **Test.** Verify that the new system configurations are correct and that all of the migrated data is accessible on the new clustered Data ONTAP systems.
5. **Close out.** After you sign off, we deliver a certificate of completion and provide the information you need to maintain your new storage environment.

## Related Services

NetApp offers a complete portfolio of services to help you with your transition to clustered Data ONTAP.

### Clustered Data ONTAP Readiness Assessment Service

NetApp Services experts perform a customized assessment of your storage environment, identify gaps, and create actionable recommendations for preparing the environment for migration from NetApp to NetApp.

### Storage Optimization Services

NetApp Services experts create and implement plans for optimizing your storage environment through these offerings: Storage Function Review, Workload Characterization Review, and Operations Consulting Service.

### Residency Services

NetApp residents manage your steady-state environment to reduce operational risk, improve utilization and storage efficiency, and help control costs.

## Dedicated to Your Success

NetApp Services can assist you in any and every phase of the storage lifecycle. Whether you need help planning your next-generation storage solution, need an extra set of hands for a major storage deployment, or want to upgrade or optimize your existing infrastructure, NetApp Services personnel have the skills and expertise you need.

When you engage with us or one of our certified partners, you gain unprecedented access to our global technical resources and intellectual property.

### Get started today

Find out why three out of four Fortune 100 enterprises choose NetApp. Contact your NetApp sales representative to learn how you can transform your IT environment from its current state to state of the art.

## About NetApp

NetApp creates innovative storage and data management solutions that deliver outstanding cost efficiency and accelerate business breakthroughs. Discover our passion for helping companies around the world go further, faster at [www.netapp.com](http://www.netapp.com).
